History.—The Historical Society of Montana was incorporated by an act of the Legislative Assembly, approved February 2nd, 1865, by the following persons: H. L. Hosmer, C. P. Higgins, John Owen, James Stuart, W. F. Sanders, Malcolm Clark, F. M. Thompson, William Graham, Granville Stuart, W. W DeLacy, C. E. Irvine, and Charles S. Bagg; "in order to collect and arrange facts in regard to the early history of this Territory, the discovery of mines, incidents of the fur trade, etc." Its first headquarters were at Virginia City. Subsequently

they were moved to Deer Lodge, and then to Helena. After a time a room for the material collected was secured in the Lewis and Clark County Court house, and occupied for the first time July 5th, 1887. In 1893 the property of the Historical Society came under the control of the state. It was combined with the Miscellaneous Department of the State Library, and the whole placed under the control of a Board of five Trustees. On the completion of the State Capitol, in 1902, the present quarters were occupied.

Loans.—The Historical and Miscellaneous Library **is a loan library.** The desire is to make it of the largest possible service to every resident of the state. Loans may be secured in three ways: Through the librarian of the public library, if there is one in the town; through the secretaries of literary clubs, if these exist. If neither of these methods are available, books may be loaned, by reliable persons, direct from the library. In all cases transportation charges will be paid by the borrower.

In order that the Express Company's "book rates" —eight cents per pound—may be secured, express charges will be prepaid and bill sent to borrower. Books will be returned at the borrower's expense and the same rate can be secured

Books may be kept two weeks, or if a longer time is desired, may be renewed by sending a postal card request in time to reach the library before the first two week's has expired. A fine of five cents per day will be imposed for over time.

Government and State Publications and Bulletins. —The library receives all of these. They contain an immense amount of valuable information upon

industrial and scientific questions, such as Irrigation, Dry Land Farming, Beet Culture, Food Adulteration and Inspection, Varieties and Care of Animals, Fertilizers, etc. Not less interesting and important are the Bulletins of the U. S. Geological Survey. The library makes a specialty of classifying these, and will be glad to give information in regard to the material bearing upon any given subject.

Magazines.—There is scarcely any subject of human interest that has not, at some time during the last few years, been written up in the current magazines by those thoroughly competent to speak with reference to it. This material we propose to place at the command of our patrons. We are already taking a large number of magazines, and expect to add to the list as the demand upon us is increased. These, and the bound volumes of magazines upon our shelves, will be loaned upon the same terms as the books, and will be found of greatest service by literary clubs, school debating teams, and private individuals engaged in any special line of research. Our magazine indexes enable us to turn readily to articles upon any given subject.

Newspaper Material.—Newspapers are makers of current history. Every newspaper and magazine published in the state is received at the library. The most valuable material in these is catalogued from day to day. The information thus collated we will be glad to place at the disposal of the patrons of the library. Inquiries in regard to it will be promptly answered.

CATALOGUE.

Below will be found an author catalogue of the books in the history class. Other bulletins, continuing the catalogue, will be issued from time to time.
